## SEEK IDENTITY OF AGED MAN KILLED ON ROAD

### Unidentified Man Is Killed In Auto Crash

Meets Instant Death When Hit By Car On Wilmington Road Friday Night

#### BELIEVED FROM ELLWOOD DISTRICT

Driver Released On Own Recognition Pending Further Investigation

Efforts are being made today by Coroner Orville Potter to secure identification of the body of a man, aged about 65 years, who was struck and almost instantly killed on the New Wilmington road, at Walmo, by an automobile driven by Joseph W. Hirsch, of Carnegie, Pa., at 6:45 Friday evening.

Hirsch told Coroner Potter and Highway Patrolman M. P. Sarko, who also investigated the accident, that he was temporarily blinded by the lights of an approaching car, and when it had passed, saw the man in the road ahead of him only a few feet distant. He was walking well in toward the center of the road, and although he swerved his car sharply to the left to avoid striking him, the door handle struck the man on the head, causing a fractured skull.

The glass was broken in the windows of the machine on the side where the man was struck, so heavy was the impact. The body was hurled to the side of the road, striking against a culvert.

**Corroborates Story.**  
Charles Gibson, of R. F. D. No. 3, who was an eye-witness to the accident, corroborated the statement of Hirsch in the details of the accident.

The man was taken to the Jameson Memorial hospital, in an ambulance, where he was pronounced dead.

### PA NEW OBSERVES

Some of these days a pedestrian on the Highland Avenue-New Wilmington road will be bumped by an automobile, and it will probably be his own fault. Last night at one time pedestrians were walking along the road and five abreast, taking half the highway. They must remember that now the road is paved, motorists travel a great deal faster over it.

Another dangerous practice, boys hanging on the rear of Highland Avenue street cars. Four boys were doing that at about eight o'clock last night, with three or four automobiles following them. One boy lost his grip, toppled off the car to the street and his life was saved only by the fact that the automobile behind him had good brakes and an alert driver.

March 1 is Ash Wednesday and the beginning of Lent.

A fleet of eighty new yellow taxis went through the city Friday night. They stopped at a local station for servicing and refueling.

A certain North Hill home is being remodeled. The place is being wired for electricity and also being painted on the interior. Yesterday in the attic, the electrician made an unusual find. He shared his find with the painter. It was none other than a full sealed quart of C. G. Enghelmer Whiskey. Some of the fact of its vintage is shown by the fact that

Three Young Men Confess They Planned Flight To Yucatan

#### STOLEN PLANE WAS TO BE USED

(International News Service)  
SAN BENITO, Tex., Feb. 25.—District Attorney D. S. Purl today announced he had obtained statements revealing that the sensational mid-air murder of Lehman Nelson, pilot, here late Thursday, was a part of a plot to steal an airplane to be used on an adventure flight to Yucatan.

Purl announced three young men confessed their part in the plot early today following an all-night grilling.

Nelson was shot as he piloted the plane several hundred feet above this city. His student-passenger, Erin McCall, 21, wrecked the plane as he attempted to land near the city. Wrecking the plane disrupted the pilot's body take off on the southern flight, which the youths estimated they could complete in six hours.

Officers were unable to determine definitely why the proposed flight was to be made.

A 15-year-old girl, whose name officers refused to reveal, gave officers the tip which led to arrest of the suspects.

### Delegate Naming Method To Bring Battle In Senate

Pennsylvania Senators To Face McClure Measure At Early Session

#### LIKELY TO COME UP NEXT WEEK

Numerous Plans Are Proposed For Selecting Repeal Convention Delegates

By JOSEPH A. LOFTUS  
International News Service Staff Correspondent

HARRISBURG, Feb. 25.—The scene of battle may shift next week to Pennsylvania's senate, all signs indicated today.

Lying dormant there are the legislative fireworks which crackled their way through the house in the last three weeks, all of them aimed at the prohibition and blue laws.

Several good-sized pieces of explosive held in the senate's law and order committee include the Schwartz Sunday sports bill and the Conner-Sowers dry repealer, both passed by the lower branch, and the McClure bill providing for a constitutional convention.

With all this energy-producing material pent up in the senate, and more of its kind on the way in the house, liberal legislation gives every indication of holding indefinitely to the main track. Legislators who hoped to ride themselves of blue and dry law reform proposals early in the session in order to give weighty financial and education problems the right of way, find their plans balked.

Paul Baker, Being Taken To Cleveland For Tire Hijacking Charges, Makes Escape

(International News Service)  
CLEVELAND, Feb. 25.—Paul Baker, reputed "brains" of a nation-wide tire hijacking ring, today made a sensational escape from a New York City deputy marshal by diving headlong through a window of a New York-to-Cleveland train as it arrived at the union terminal depot here.

**Is Dangerous Man**  
Baker, under a federal indictment here on a charge of stealing from interstate freight shipments, was being returned from New York City, where he was apprehended. He is one of seven men indicted in connection with the "hi-jacking" of more than five truckloads of tires being shipped by Akron rubber companies.

According to U. S. Marshal William Williams, Baker plunged through the train window and disappeared in the crowds in the station during a rush hour.

All available U. S. deputy marshals and police were dispatched to the vicinity of the depot to trace the fugitive. Assistant U. S. District Attorney William J. McDermott declared Baker was a "highly dangerous" man and instructed searchers to "shoot to kill" if he showed any signs of resistance.

# FOLLIES GIRL WIDOW GETS NO BIG ESTATE

## Little Income For Mrs. Fell

Three Separate Probes Being Made In Death Of Wealthy Banker

### COLONEL DREXEL TO ASSUME CHARGE

(International News Service)  
PHILADELPHIA, Feb. 25.—Martha Enderton, the follies girl widow of John R. Fell, wealthy Philadelphia sportsman and banker, will receive nothing from the \$20,000,000 estate of his grandfather, Anthony J. Drexel, although Fell himself shared in the large income of the Drexel estate.

An inspection of the Drexel will revealed today that Mrs. Fell, who was alone with her husband when he died at Solo, Java, a kitchen knife through his heart, will receive only his personal estate. That may include, however, some of the income he received from the fortune of his grandfather, a noted Philadelphia financier and philanthropist.

Three Probes  
Meanwhile, three separate investigations were launched into the mysterious death.

Colonel Anthony J. Drexel, an uncle, who was to have met Fell and his wife at Solo, cabled here from Colombo, Ceylon, that he was speeding to Java to make a personal investigation of the tragedy.

J. H. Van Royen, minister from the Netherlands at Washington, was requested by two sons of the slain man, John R. Jr., and Philip S. P., both of New York, to request from Japanese authorities a full and detailed report of their father's death. A similar request was made by the State department.

The third investigation was being made by the United States consul at Batavia, Java, about 300 miles from Solo.

The accident occurred almost directly in front of the R. T. Withers home. Ralph Montgomery, who lives in the home north of Withers' heard the crash and was on the scene of the accident soon after it happened. He did not see the collision, however.

The dead man was aged about 65 years, around five feet eight inches in height, with gray eyes and gray hair. He weighed around 130 pounds. He was wearing a gray suit of clothes and also had on a pair of blue trousers underneath, and a blue vest. He was wearing a gray felt hat with black band, which had been purchased at Simon's store in Ellwood City.

Hirsch Released.

Ellwood City police were called last night and asked to come and view the body, in the hope of identifying him as a resident of the Ellwood City district inasmuch as his hat had been purchased there, but they were unable to identify the man, although his appearance seemed familiar to them.

The body was removed to the Morrow undertaking rooms to await identification until Monday.

Hirsch was released on his own recognizance pending further investigation into the accident, by Coroner Potter this morning.

The man was walking in the direction of New Castle, and Hirsch was also traveling in the same direction. He was enroute to his home in Carnegie from Sharon, where he had been employed as a salesman during the past week.

### DELEGATE NAMING METHOD TO BRING BATTLE IN SENATE

(Continued From Page One)

have been anticipating release of the blue law modifier from the same Senate committee, but so far the Sunday baseball bill hasn't got to first base in the upper branch.

As for the Conner-Sowers dry repeal, leaders have quite plainly indicated it will be kept under cover until liquor legislation, being drafted by a house committee, catches up with it.

Pointing to early action on Senator McClure's bill, however, is the fact that the assembly is virtually under compulsion to deal with national prohibition. Congressional passage of the dry repeal resolution rested the fate of the eighteenth amendment with the states. Assembly members hesitated last week, however, because of a move at Washington to set up uniform convention machinery, but since then congress leaders decided not to dictate to the states.

Method of Selection Problem  
The legislative controversy will be over the method of selecting delegates to the convention. The McClure measure provides for 67 delegates, one from each of the 34 congressional districts and 33 others to be elected at large. That plan, in principle, is believed to meet the desires of the wet element prohibition advocates have not announced their proposals, or whether they have any.

Other methods informally proposed include one to use senatorial districts as the unit of representation, while a few legislators gravely suggest a one-man convention. The procedure in that would be to nominate two candidates, one pledged to repeal and the other dry in temper. The result, in effect, would be a state-wide referendum and whether such a method would meet federal requirements is unknown.

### JAPANESE MAKE STEADY DRIVE IN JEHOI PROVINCE

(Continued From Page One)

Nations asked for American and Soviet participation to restore peace in the Far East and discussed the growing agitation for an arms embargo against Japan.

China Sends Veterans.

Peiping, Feb. 25.—In a sweeping attempt to head off the Japanese advance toward Jehoi City, China threw her war-seasoned defenders of Shanghai into battle today.

Crack units of the valiant Chinese forces which held Shanghai for weeks against the Japanese last year arrived at the front north of Lingyuan and dug in to stem the Japanese onslaught.

It is upon these troops that China rests her chief hope of preventing the ancient capital of Jehoi from passing into Japanese hands, now that Peipiao, Kailu and Chaoyang have fallen before the invaders.

Army Well Equipped.

The Shanghai army is well equipped with most modern instruments of warfare. The troops are under command of officers with West Point degrees and their morale is the highest of any of the far-flung armies of China.

The Shanghai defenders took up strategic positions blocking the Japanese drive toward Lingyuan, one of the few important towns still lying in the path of the Japanese advance.

At the same time, regular Chinese forces stationed in Jehoi and the personal troops of Governor Tang Yu-Lin began to move northward toward Kailu from Chihfeng.

Main Drive Starts.

Tokyo, Feb. 25.—With the long-awaited main drive against Jehoi Province officially under way, Japanese and Manchukuo troops pressed inland today following subjection of Kailu and Chaoyang.

Driving past these points, the Japanese troops swarmed toward Jehoi City, despite heavy snows and the efforts of Chinese snipers and machine gunners stationed in hidden nests in the bleak Jehoi hills.

The northernmost column advancing from Kailu must only slight resistance from the volunteers and "bandits," while troops advancing from Chaoyang, further south, were harried by snipers.

Reports from the battle front declared the Chinese raiders had erected heavy defenses between Tungliao and Kailu and that 3,000 volunteers at Tungliao had destroyed bridges along the Tungliao-Tashuan railway.

Report Chinese Flee

Part of General Ping Chang-Hai's forces had approached Maiwai, it was reported.

Regular Japanese cavalry detachments, meanwhile, operating from Tungliao began their main drive inland. These units were commended by General Mogi, and worked in co-operation with Manchukuo forces driving west from the Chinchow Mukden railway.

At Tungliao, it was reported a volunteer force of 30,000 Chinese retreated without fighting before the Japanese advance.

From Shanhaikwan, scene of a bitter Sino-Japanese battle early in January, it was reported that Marshal Hsueh-Liang, Chinese commander in the north, had ordered the Chinese air force to operate from Lunanchow against the Japanese invaders.

Bombs Are Dropped

TOKYO, Feb. 25.—Japanese airplanes today bombed Jehoi City goal of the intensive drive launched to annex the province of Jehoi to Manchukuo.

The bombing of Jehoi City, also known as Chingteh, followed a series of sweeping air raids which enabled Japanese and Manchukuo forces to crumple the Chinese first line of defense and capture the strategic towns of Chaoyang and Kailu.

Japanese airplanes also bombed 300 Chinese troops retreating southeast of Chaoyang. The Japanese and Manchukuo forces penetrated deep into the interior of Jehoi after taking Chaoyang and Kailu, occupying the town of Yuliangpu.

No estimate of the damage done by the bombing expedition against Jehoi City was available here. It was the first time since the invasion of the province began that Jehoi City had been actually threatened.

Meanwhile, Japan's future plans were kept secret but it was indirectly revealed that the navy was being held in readiness to cope with possible anti-Japanese violence in Southern China.

The number of ships and men available could not be learned but government officials confirmed that "precautionary measures" had been taken.

S. H. Gilbert of Oak street, who has been quite sick at the home of his daughter, Mrs. Rick, on Ray street, is reported as being some better and able to be up.

Mrs. Elizabeth Martin of East Washington street, is reported to be quite sick.

errors of the present generation along to the next one, by restricting education."

Deploring evidences of a trend toward aristocracy in education in the present crisis, Dr. Bagley continued:

Must Cut Budget  
"There have got to be cuts in the educational budget, as in everything else, of course. But the cuts are being made in the wrong places. I particularly deplore attempts to curtail health education, for instance and to charge tuition in the high schools. Our free high schools are the great triumph of American education. And when the wheels get turning again, the service the

high schools render will be more essential than ever before. In the years between 1920 and 1930, the decrease in occupational opportunities was in the routine levels, while an increase was evident in the upper levels. The same condition will again be true as soon as things right themselves, as they are bound to do."

Salary Reductions  
Dr. Bagley expressed himself in favor of a "horizontal reduction of salaries along the line" as the least evil economy measure.

As the only woman member of the all-important emergency committee which is to make its report at Tuesday's session on the situation confronting the schools Mrs. P. Blanche Preble of Chicago, president of the department of classroom teachers of the N. E. A. pointed out the near-sightedness of school economy programs by stating:

"A child can grow up but once: and now, when the homes are powerless to give childhood what it must have for proper development, the schools must not suffer from misguided demands for lowering taxes without regard for the cost to civilization."

"If boys and girls are refused the opportunities and encouragements for developing along the right lines, they will develop along wrong lines. They will not remain inactive. Schools even though they seem expensive are cheaper to maintain than are houses of correction and state and federal prisons."

Discouraging Battle  
Miami, Fla., Feb. 25.—Mayor Antonio J. Cermak, the victim of an assassin's bullet directed at President-elect Roosevelt, fought a valiant but apparently discouraging battle today against death.

Determinedly he fought, but physicians at Jackson Memorial Hospital were frankly pessimistic. The situation was summed up in few words by Dr. E. Sterling Nichol

when at 6:05 a. m. (E. S. T.) he came from the mayor's sick room and said:

"The mayor spent a restless night. His condition is unchanged. I am disappointed that he did not show a gain during the night and I am frankly pessimistic now. The mayor himself is getting tired of the long fight."

Dr. Nichol said the mayor might live for several days. The doctor obviously was disheartened as he continued:

"The only encouraging feature is the clearing up of the congestion in the lungs. That has about disappeared. But the heart is not showing the improvement which we

hoped for when we began the administration of stimulants."

Thus, although the mayor had not lost ground during the night, he had not gained, the physicians said in summary.

Correct this sentence: "It is her money," said the prospective heir, "and giving it to charity doesn't indicate that she is incompetent."

Why risk long flights when you can get the same publicity by joining a chain gang?

The insurance companies have generously decided not to foreclose a \$10,000 farm mortgage to get \$4.65.

**PLATED WARE**  
The man who looks back at the boy he used to be and is amused. He says to himself—perhaps he speaks aloud: "What a fool I was when I was young." Or the woman remembers the girl and murmurs, "What a silly little idiot I used to be!"

It does not matter. We have all been fools occasionally, perhaps more often than we have known. We have all made our absurd mistakes. We thought stubbornly and fiercely and lived to change our minds. We have put our trust in tinsel, we have carried Fool's Gold in our pockets, we have learned to like what afterwards we have grown to ignore. . . . The process is called "growing up", but it may be merely getting older and changing as the years roll over us. . . . We can never be certain which is the truer explanation of it.

I remember a poem that Emily Dickinson wrote (she was one of the best of all American poets) and it's about this sort of thing. Just two stanzas, that's all:

It dropped so low in my regard  
I heard it hit the ground.  
And go to pieces on the stones  
At the bottom of my mind;

Yet blamed the fate that fractured,  
less  
Than I reviled myself  
For entertaining plated wares  
Upon my silver shelf.

You understand. She had to put it boldly, a fragile plate. It fell and was broken. And the poet did not blame the dish as much as she blamed herself for cherishing such a delicate thing. . . . Thus she grieved only a little.

## Once Overs

By J. J. MUNDY

**FOOLISH "PRIDE"**  
What a lot of foolish mortals there are in the world. People who subject themselves to all sorts of exposure in order to create a better impression among those who will see them.

The small town man is discarding overshoes, he is in the habit of wearing, just because he is "in the city."

He thinks overshoes indicate he came from the sticks.

Then he dons a lighter weight overcoat because it is a better one when he is in the metropolis and wonders why he has a cold, if not something more serious, every time he visits the city.

Foolishness of this sort is usually attributed to women and they are more inclined to do things of this kind.

But it is surprising how many men also have this foolish pride.

Of course it is true that few men in the city wear overshoes.

Pavements and sidewalks are kept clear of snow and ice and there is not the necessity for walking that there is in a smaller place.

But isn't it childish to subject yourself to conditions to which you are unaccustomed just for appearance sake and a little pride?

Why should you care what people think of you? Most of them wouldn't take time to notice you closely anyway.

**THE HOPELESS MAN**  
They found him dead beneath a tree!  
"Once rich," they said, "he used to be."  
But thinking hope from life had fled  
He'd put a bullet through his head."

The birds will come again in spring  
The yellow wild canaries sing  
The tulips bloom and in the town  
Friends will go plodding up and down.

Poor men who once were rich will grow  
Geraniums and Golden Glow  
And find the means and time to spend  
To play the neighbors and the friend.

And while he's sleeping in his grave  
Mothers the odds of life will brave  
To give their children tender care  
In spite of worry and despair.

And even those who trusted him  
Will take his heavy burden grim  
And bear it on with courage stout  
Until the sun comes shining out.

In but a few brief weeks there'll be  
The budding leaf on vine and tree  
In but another month or more  
The spring will tap at every door.

Remove far from me vanity and lies: give me neither poverty nor riches: feed me with food convenient for me.—Proverbs 30:8.

**THE JUDGE'S THICK HEAD.**  
In a magistrate's court the other day a witness was examined in a case where the defendant was charged with breaking the windshield of an automobile with a large stone.

"Was it as big as this book?" inquired the judge.  
"Why, yes, it was much larger," replied the willing witness.  
"Was it as big as these two books together?"

"Much bigger."  
"Was it as large as my head?"  
"It was as long, but not so thick," replied the witness, amid much laughter.—Kreolite News

## Hints and Dints

Sun sets tonight 5:47. Sun rises tomorrow 6:39.

It is said that noiseless carriages are not popular on the railroad lines in Holland. The rattle of the old kind drowned out the conversation and allowed passengers to rest undisturbed when reading. The rattle-trap kind would not be so popular here, where everyone keeps his ears pricked up for some new bit of gossip.

Some men will kiss a woman without any provocation, whatever, while others have to be dared to.

Under present conditions, we wonder just what constitutes a failure.

Some mothers are sure there are devils. They wash their faces and comb their hair for them every morning.

A local doctor visited a fortune teller recently and was told that he had a lot of money coming to him. What the fortune teller didn't tell him, however, was how to collect it.

Jack and his bean stalk hadn't much on Bill Atkinson when it comes to building. A few days ago there was an old landmark at the corner of Mill and Sycamore streets. Today it's gone, and a new block stands in its place. Joe Hartland did the brick work, while Atkinson stood by playing a hose on the walls to keep the bricks cool.

Several arrests of out-of-town people have been made lately for selling food and other stuff from house to house. New Castle seems to be looked upon as a feeder for some of the larger towns, and even some of the smaller in this vicinity. Don't be an easy mark.

Cigarette sales are off? Which indicates that millions aren't smoking any longer. But shorter.

Speaking of Mr. Insull. He may find that the Greeks will have a word for him if he stays there long enough.

**CONTEMPT OF COURT.**  
"Yes," said the dark man, "my name is Isaac Abraham Jacob Cohen, but I don't like it. It cost me 20 pounds the other day."

"How on earth was that?" asked his friend.  
"Vy, it was this way. I was in court, and the judge said to me, 'Isaac is your name?' and I said, 'Isaac Abraham Jacob Cohen,' and he said, 'Are you a Jew?' and I said, 'Don't be a fool!' and he fined me 20 pounds.—London Daily News.

A State Senator named Martin, wants to have the 39 states, excluding the eight big eastern states, secede from the Union and let them form an independent state, claiming that they have waxed rich at the expense of the others. Well let the other 39 try to finance a few Boulder and Hoover dams and they may find out something.

Japan does not decorate her soldiers or sailors. If that had been the case in the United States, maybe General Butler would have resigned much sooner.

It won't be long now until the warm sunshine will put the "flu" germs to flight.

We allow ourselves to be greatly kidded sometimes. Take the case of Ivar Krueger and Samuel Insull. Both of them were doing business on a big scale and were merely bluffing.

Marshall Chang, in charge of Chinese military operations around Jehol, declares that the Chinese have their "backs to the wall" and are going to do some hard fighting

to keep the Japs out. Meanwhile the world looks on with sympathies overwhelmingly on the side of the yellow men who are fighting for their homes and firesides.

As a lesson in memory culture a bill which has been introduced in the legislature will likely be far more efficient than text books. This bill would impose a fine of \$25, or 15 days to jail, upon a person who fails to return a book to a public library within fifteen days after notification. Why not have the bill apply to private individuals. We have heard of people who borrow books and never return them.

According to a report made public by the board of health, the city's health has been good during the past year. This is as it should be. What would be the use of having a health department if a report were otherwise. We're paying out our good money to keep well.

Now that Pymatung dam is nearing completion, the next question is what we're going to do for places to send men to work. The dam work has not been a money making proposition for anybody, but it has helped out considerable in relieving a serious situation. It's a good time now to hatch up some highway projects in which the county and townships can co-operate.

Folks who like to have their fingers in the pie can now be accommodated at the county jail. Sheriff Johnston's pie is served on a pad, and when you wipe your hands you leave your fingerprints. The sheriff has a big box full of these fingerprints that are more intricate than a cross word puzzle.

Local merchants who have grown gray headed trying to make out their income tax blanks, are now getting bow-legged wrestling with their state sales tax. By the time they make out their mercantile tax and real estate tax, pay the tax on the cigs they smoke, the gas they burn up, they're too tired to do anything else.

We notice that they're going to have a fathers and sons dinner on March 2nd. It's going to be real nice to get together if only for dinner. In the good old days fathers and sons, ate breakfast, dinner and supper together every day, but that was when families had what was called the "home circle" and family worship.

Many a man who knows little or nothing about music, finds that he can produce real harmony in his home, by playing the second fiddle.

If these European nations fail to pay us what they owe us, what are they going to do, when they want to borrow money again, some time.

According to Chairman Norbeck of the Senate Banking committee, Insull was merely running a "two-billion dollar racket."

The guide had patiently pointed out to an Eastern that the grand canyon had taken a million years to be carved out. "My Gosh," he exclaimed, "I didn't know it was a government job."

Omaha, Neb., has the most gossips of any city in the United States. Proof? It has more telephones in proportion to population, 28 per hundred persons.

"Now June," cautioned a North Hill woman to her little daughter. "You mustn't eat so much ice. It isn't good for you."

"But mummy," came the reply. "I don't eat it. I just suck the juice."

One nice thing about the man who cannot read. He misses a lot of gloomy reading these days.

We heard a North Hill woman say that she would like to get some fresh dirt for her rubber plant. That suggests an idea for the unemployed. There are probably lots of rubber and other plants languishing for fresh dirt. Some enterprising citizen with a wheelbarrow,

or truck could probably sell a lot of good fresh earth for flower pots. There's no patent on this idea.

If your wife asks you for money sometime, ask her whether she would rather have an old five or a new one. If she says a new "one" you will be just four dollars to the good. Just try it.

**HIS "BRIEF."**  
"Isn't a law-suit involving a patent right about the dullest thing imaginable?" asked one lawyer of another.

"Not always," was the reply. "I attended a trial of that character not long ago that was really funny. A tall lawyer named Short was reading a six-hundred-word document he called a brief!"—Everybody's.

There are people here in New Castle who can remember when pocketbooks were carried around for more than just a keepsake.

Hon. William McElwee, Jr., wants Governor Pinchot to be specific on his charge that some poor boards are furnishing whiskey, flowers and cigars with relief orders. Mr. McElwee's ground is well taken. General charges of this nature reflect on all boards, and if there are any boards that are doing the things that the governor claims, it is his plain duty to point them out. Such charges are about on a par with anonymous letter writing.

**EVEN-HANDED JUSTICE.**  
"Well, sir," said Tud Differdang, of Turkey Trot, "when I was over at Slippery Sled tuther day I listened to a queer trial."

"Di, eh?"  
"Eh-yah! They had a couple of brothers-in-law up for fighting. Pears like, in the course of the rucus Jim Waller had pulled out Tobe Snatch's whiskers by the roots. Well, after the jury had studied the case for quite a spell they took and turned Jim loose and fined Tobe 15 cents, the price of a shave."—Kansas City Star.

About all you can say for eating an apple in public is that it proves your lowers aren't false.

**ALIBI.**  
Cole Black had fallen afoul of the law and was having a preliminary conference with his attorney. "Can you prove an alibi?" asked the latter.

"Al—says which, boss?"  
"Alibi. Can you prove where you were at the time the offense was committed?"

"Lawdy, boss, dat's jes' what Ah's skeered dey's gwine to do!"—Pathfinder.

Senators and congressmen in Washington are permitted to park their cars anywhere they choose there and for an unlimited period of time. It begins to look as if congressmen are taking in a little too much territory.

Had a letter from a friend who had driven his car to Florida recently. He has the following to say, "Paid the following gas tax in respective states on the way down, Pennsylvania four cents, Virginia six cents, North and South Carolina and George seven cents and Florida eight cents." Doesn't look like Pennsylvania is so bad.

Some of these fellows who have been discharged from the army and navy for insubordination, are certain that what this country needs is a dictator.

It is claimed that the five-day week plan was originated by the ancient Hittites. No wonder the Israelites were always warring against them.

Judge (to victim of hold-up): "While you were being relieved of your valuables, did you call the police?"

Victim: "Yes, your Honor, everything I could think of."—Judge.

## Attack On President-Elect Creates Urge For New Laws

Fortunate Escape Of Mr. Roosevelt From Serious Consequences Brings General Recognition Of Hopes Placed In Coming Administration

President-elect Roosevelt, escaping an assassin's bullet in Florida, has received tributes from the country which involve a striking demonstration of the national hope that is placed in his services at the head of the government. The crime is laid to a single person with a disordered mind, and many demand greater restrictions upon the sale of firearms. It is also urged that the demands for public appearances of the Chief Executive should be curtailed, in view of the duties of his high office, and the recognized impossibility of guarding fully against criminals.

Mr. Roosevelt's peril will be a source of strength to him, says the WASHINGTON EVENING STAR. "His experience at Miami will result in the rallying of thousands of citizens to him. \*\*\* If declared enemies of society seek his life, he can be sure of the support of such of his fellow citizens as value the social institutions of their country."

"It is doubtful," thinks the OMAHA WORLD-HERALD, "if at any other time in its history, so nearly world-embracing a hope and faith and confidence were reposed in one mere mortal man, if so many prayerful eyes were turned to any leader and servant of the people, as center now upon Franklin D. Roosevelt."

The PORTLAND OREGON JOURNAL declares: "Franklin D. Roosevelt, charming in personality, Lincolnesque in his consideration of the hopes and plans of plain people, dedicated wholly and unreservedly to an effort to deliver his country and his people from the discouragements and despair of the times, is one of the last men in the world at whom there is reason, excuse or pretext for an assassin's bullet to be aimed."

"He has a unique opportunity," states the BALTIMORE SUN, "to observe the very real danger to which the American people are counting upon him, and the esteem in which he is held, while the fact that the hopes of the country, and even of the world, are centered in him, is attested by the ALTOONA MIRROR, the ROANOKE WORLD-NEWS and the HAMILTON JOURNAL. The MIAMI DAILY NEWS expresses the nation's "jubilation" that he was spared for the great tasks he is about to undertake. The COLUMBIA (S. C.) STATE praises "Roosevelt, the man," and observes that he is "calmly master of himself, coolly courageous, and self-possessed in time of great crisis."

The DAYTON DAILY NEWS emphasizes the fact that "the event carries assurance as to the fiber of the man to whom, as to no other man in generations, his country looks for intrepid service now."

"It becomes more and more apparent," in the judgment of the SALT LAKE DESERTER NEWS, "how subject life and property are to ideas. A pistol or a battleship turns against the best interests of society, with a change of ideas in the minds of men. It is a time for sound thinking and clear vision."

The DES MOINES TRIBUNE advises that "the lesson of the need of greater care to protect the key men of government is obvious," while the SAN ANTONIO EVENING NEWS holds that "hereafter, the comings and goings of Mr. Roosevelt must be watched over closely," a demand which is voiced also by the OKLAHOMA CITY TIMES. It is urged by the EUREKA (CALIF.) HUMBOLDT TIMES that "he should forego unnecessary risks," by the OAKLAND TRIBUNE that "it may be necessary to lessen his number of public appearances," and by the SIOUX FALLS DAILY ARGUS-LEADER that "we should take steps to see that he is not subjected to such dangers in the future." The SCRANTON TIMES, however, thinks that "it is difficult to see how such risks can be avoided if our residents and other leaders are not to live cloistered lives."

That it is impossible to guard completely against such attacks is the contention of the NEW YORK HERALD TRIBUNE, the NEW YORK TIMES, and the RICHMOND NEWS LEADER. The last mentioned paper concludes that for the President to reach the country "it is possible that the radio will be increasingly employed." The DANBURY NEWS-TIMES feels that the acts of the demented are as accidental as the disastrous consequences of a catastrophe in nature."

The SPRINGFIELD (MASS.) UNION warns that "assassination of an official is too high a price to pay for our too easy tolerance of enemies of our institutions," while the NEW ORLEANS TIMES PICAYUNE advises that "the possibility of attack by individual cranks or fanatics is one of the dangers of high office," and the CONNELLSVILLE COURIER is convinced that it is necessary "for the price to be paid." Quoting Mrs. Roosevelt's statement, "This is what happens to you if you are in public office," the YOUNGSTOWN VINDICATOR adds: "Her remark seems to sum up everything that can be said about it."

The need of rigid laws curbing the sale of firearms is upheld by the OSHKOSH DAILY NORTHWESTERN, the GARY POST-TRIBUNE, the LINCOLN STATE JOURNAL, the BOSTON TRANSCRIPT, the MILWAUKEE SENTINEL, the CLEVELAND NEWS, the JERSEY CITY JOURNAL and the COLUMBIA (S. C.) RECORD. Pointing out that the assailant was a native of a foreign country, the SPOKANE SPOKESMAN-REVIEW declares that "we have done a poor job of sifting," while the PASADENA STAR-NEWS feels that a man of those admitted "there are too many that the United States would not welcome as citizens." The LEXINGTON LEADER condemns their failure to "understand the genius of the American government." In this discussion, the great contribution to American life that has been made by naturalized citizens is acknowledged by the CLEVELAND PLAIN DEALER and the HOUSTON CHRONICLE, with emphasis on the fact that Anton Cermak, one of the marks for the assassin's bullets and a great civic leader, was a native of a foreign country.

Individual responsibility which rests upon all Americans to protect their Chief Executive is urged by the NEWARK EVENING NEWS and the BUFFALO EVENING NEWS. The isolated nature of the position of an insane person, with complete lack of significance in his acts, is set forth by the BOISE IDAHO STATESMAN, the CHARLES-

HUMPTY DUMPTY.  
(American Prosperity)  
SOME TIME IN 1933—A PREDICTION.

Humpty Dumpty is back on his wall. Humpty Dumpty who has the great fall!

All remember how he fell  
Down from the top of the wall pell-mell.

Surgeons toiled with might and main  
To put poor Humpty together again.  
Mending joint and splintering limb.  
What a job they had with him!

But all their efforts were in vain.  
To get him back on his wall again.

Doctors called in consultation.  
Diagnosed extreme prostration.  
Gas from stock and debt inflation.  
Mass-production, saturation.  
And general good times satiation.  
Syncope and hyper-tension.  
And other ills too grave to mention.  
Recommended rest and quiet.  
With a much restricted diet.  
Healed his hurts with salves and lotions.

Gave him powders, pills and potions.  
Humpty Dumpty never stirred.  
Humpty uttered not a word.  
All their skill in therapeutics.  
All drugs known in pharmacopoeia.  
Artificial respiration.  
Venesection and defecation.  
Failed to bring resuscitation.  
Vain was all their medication.  
Spite of surgeons and physicians.  
Nature-healers, and politicians.  
Just a prospect for morticians.  
Three long years and more he lay.  
Dead to the world from that fatal day.

How did Humpty get back on his wall?  
Nobody knows for certain at all.  
But my own view is that the little elf  
Just climbed back on that wall himself.

—T. W. W.

## Some Support Comes Into Market At End Of First Hour

(International News Service)  
NEW YORK, Feb. 25.—The stock market broke 1 to 4 points today on the overnight news of the Maryland banking holiday.

This unexpected development wiped out yesterday's gains on the understanding the Roosevelt administration was committed to a sound money policy.

Some support came into the market at the end of the first hour and helped check the decline. A mild recovery followed but gains from the market were fractional and the market displayed a depressed undertone.

Weakness was general in all markets. Bonds turned down sharply on renewal of liquidation as the result of the new banking difficulties. Commodities were reactionary, cotton losing more than 50 cents a bale and wheat nearly a cent a bushel.

The market showed pressure from the opening gong, when losses ran from 1 to more than 2 points.

The decline was extended in moderately heavy trading and a number of leading issues were driven to new lows for the year, led by U. S. Steel common and Consolidated Gas.

Railroad traffic for the week ended last Saturday came through with the expected gain though less than Wall Street had anticipated. This, however, had only a temporary supporting effect on rail shares and was ignored by the rest of the market.

## Accident Proves Fatal To Lyons

## Fracture Of Skull Causes Death Of Man In Ellwood City Hospital

ELLWOOD CITY, Feb. 25.—A skull fracture as a result of an automobile accident Friday morning caused the sudden death of Frank Lyons, aged 73, of Burnstown at the Ellwood City Hospital about 3 o'clock yesterday afternoon.

His death was a shock to friends who were under the impression that his condition was not serious in view of the accident and his external appearance.

The accident which caused his death occurred about 9:45 Friday morning on the Ellwood-New Castle road just opposite the Kraus home on Line avenue in the borough limits.

Mike Dudash was driving his car enroute to Ellwood City when he was forced to considerably slow up for a road team and scraper in front. According to his report at the local police station he was traveling at 10 miles per hour when the accident happened.

When he had come behind the grader Mr. Lyons suddenly ran across the road and into the path of his car. Mr. Lyons was struck down before the car could be stopped. He was immediately taken to the local hospital where it was reported his condition was not serious.

Lyons was believed to have been on his way to New Castle at the time of the accident.

County Coroner Orville Potter was called to scene and after a preliminary investigation released Dudash on his own recognizance. He plans to conduct an inquest into the death on Tuesday night at Ellwood City.

The deceased is survived by his widow, two sons, and three daughters. The widow and one son are at home and the remainder at Youngstown. Funeral arrangements are incomplete as yet.

**Ellwood To Play St. Stans Tonight**

Two Fine Preliminaries Are Also Arranged For This Evening

ELLWOOD CITY, Feb. 25.—Three good floor contests are billed at Lincoln gym tonight in the Ellwood Merchants basketball club. The opening set of the triple attraction will find Harry McCloskey's Frisco Merchants pitted against the speedy Calvary Presbyterians of the New Castle Church league whom the Frisco defeated recently by a one point margin recently. The contest scheduled to get underway at 7:15 will be followed an hour later by a girls tilt featuring the Ellwood Ex-Hi lassies and the Calvary Girls. Added interest is lent to the girls game due to the fact it is the deciding battle of a three game series.

Idle since their clean cut decision over the powerful St. Mary's five, first half champs of the Penn-Ohio League here a week ago John Ruskovic's Merchants tossers are anxious to down the St. Stan's of Youngstown in the finale of the Booster attraction slated for 9:30.

This has been a lean season for basketball generally and notably so for the Merchants who have dropped most of their league games despite the fact that they have played good ball in many of the setbacks.

## LOCALS TO END SEASON TUESDAY

ELLWOOD CITY, Feb. 25.—Ellwood City High lost a close and thrilling basketball game last night to Monaca High by a score of 21-20 on the latter's home floor.

The game was hard fought throughout. The Ellwoodians were coming along splendidly in the final period and it seemed that they were going to pull the game out of the fire when the closing whistle sounded to cut short their last minute rally and just one point short of knotting the count.

Captain Bolotin and McFadden were a constant worry to their opponents. The former accredited himself with 5 doubledecks and two fouls for a total of 12 points and high score for the evening. McFadden acquired three baskets for a total of six points. Coombs was the outstanding performer for the victors with four field goals.

Both teams played cautious basketball throughout the game. Neither was able to maintain a commanding lead. Monaca led the way from beginning to end. The score read 6-4 at the end of the initial stanza and at half-time Monaca added two more points to their lead to make the score 16-12. The rivals resorted to defensive tactics in the ensuing stanza and were able to acquire 2 points each. In the final chapter the Ellwoodians made a desperate effort to wipe out Monaca's four point lead. Their efforts proved fruitless and Monaca had avenged its earlier defeat in Ellwood City. Ellwood will end their season next Tuesday with Bessemer High here.

**Reserves Triumph**

The Ellwood City Reserves played a marvelous brand of basketball as they nosed out the Monaca Reserves 21-19 in an exciting preliminary game. The local's broke a deadlock in the final period to win the game.

**Observations  
In 7th Ward**

Grass fires have a summer-like atmosphere about them. Perhaps that is the reason the Atlantic avenue grass fires on Friday had an aura of cheeriness. Anyway it made the passing motorists forget for a moment that winter is not yet over. One of the fires had cleaned out a couple of acres of ground east of Atlantic avenue and north of the Simpson M. E. church. The other was eating its way along the ground north of North Liberty street and south of Swansea avenue. The fires were eating hungrily at the fence posts also.

**Hold National  
Defense Program**

Protection Against War Is  
Urged At Meeting Of  
Legion Auxiliary

**DINNER PRECEDES  
MEETING FRIDAY EVE**

Defense measures, necessary to bring this nation on a par with other countries were urged by speakers at the dinner and program given by the American Legion Auxiliary to the Perry S. Gaston post in the Legion Home last evening.

Mrs. Ida M. Suber, president of the auxiliary, presided as chairman, and after welcoming the guests introduced Attorney Clarence A. Patterson as toastmaster of the evening.

The meeting was opened with the singing of America and the salute to the flag, after which the invocation was given by Mrs. Mary Arenth.

There were 75 present at the dinner, which was one of the finest affairs held this year by the auxiliary.

Alderman James Brice was the first speaker and gave an interesting talk on the work of the American Legion.

**Wadlinger Speaks**  
Major Guy J. Wadlinger stressed the importance of being prepared for war at all times, citing numerous instances from his own personal observation of the late World War proving that the United States was unprepared for the great conflict which they entered so hurriedly.

By spending money now for an adequate national defense program, this country is less liable to invite attack from without, he stated.

Mrs. C. V. Homer of Greenville, district director of the western Pennsylvania counties, gave a report on the recent National Defense Council meeting at Washington, D. C., which was attended by representatives from every state in the Union.

She stated that it was brought out during the meeting in Washington that the United States ranked 15th in armament, and the council urged that it be brought to a parity with other nations. She stated that the American Legion Auxiliary knew what war meant and were anxious to avoid another conflict, but that the organization also believed in being prepared so that there would be no needless sacrifice of human life.

**Stresses Membership**

Tom Edmunds, commander of the Gaston Post, spoke on membership, urging all present to exert a greater influence toward building up the membership of the Legion and Auxiliary.

Mrs. Margaret Bowen rendered a solo, accompanied by Mrs. Peter Picato. Lester McClelland, a member of the Gaston Post, also rendered several delightful vocal numbers, accompanied by Alvah Shumaker.

Ivor V. Davis spoke on "America Today" and cited the fact that debts of 1929 proportions were trying to be paid with 1908 incomes. He pointed out the need for scaling down all debts within the ability of the debtors to pay.

Mary Elizabeth Suber rendered a solo, "Buy American," followed by a dance, and a toe dance was also given by Nina Strong.

Mrs. William Nicholson, president of the Greenville auxiliary; Mrs. T. Mayers and Miss Josephine Dorwart of Greenville were introduced.

Remarks were given by City Controller Phil Greer and William Reynolds.

At the close of the evening Mrs. Clarence Patterson was presented with a naval print plate as a door prize.

The committee in charge of the program was composed of Mrs. James Cooper, chairlady; Mrs. Phil Greer, Mrs. Ivor Davis, Mrs. William Fleming and Mrs. William Reynolds.

Assessed Big Fine**

Held In City Jail Pending Effort To Get Funds With Which To Pay

Late Friday afternoon, the police received a call to the effect that six men in an Ohio license car were soliciting from house to house on East Lutton street, in an effort to get magazine subscriptions. They were requiring a down payment.

Officers responded and arrested William Frame, said to be from Youngstown, and manager of the crew and five other men. All were charged with failure to register with the New Castle police department and post bond.

Frame insisted on telling the mayor that he "could not do this" and as Frame had been ordered out of town on a recent previous occasion, when taken in the same activity in the North Hill district, the mayor advised him that he did propose acting in the matter.

He was assessed a fine of \$50 with the privilege of spending ninety days in the county jail instead of paying the fine. The other five were discharged. Frame did not have the money and is being held in the city jail pending an effort to get the money.

## Contract Is Awarded For Mail Hauling

By ARTHUR C. WIMER  
Special Washington Correspondent Of The New Castle News

WASHINGTON, D. C., Feb. 25.—Next July first, Charles De Carbo of New Castle will commence hauling the mail between the New Castle post office and railroad stations.

Mr. De Carbo is the successful bidder for the four-year contract commencing July first, offering to perform the work for \$4700 a year. The present holders of the contract, William H. Stubbs and J. G. Fisher have been receiving \$6450 annually under the terms of their agreement.

The Post Office Department called for bids for the new contract some weeks ago, and Stubbs and

Fisher offered to continue the mail hauling for \$5495 a year. Mr. De Carbo underbid them by \$795 annually, however, and has been awarded the contract. Substantial reductions were made in haulage prices submitted by bidders in cities all over the country, and the Post Office Department has concluded it will be cheaper to continue to have such work done by contract rather than by employees receiving a salary from Uncle Sam.

The Post Office Department has forwarded a letter to Mr. De Carbo advising him that his bid has been accepted and that a \$9000 bond posted by him is satisfactory.

## Maryland Has Bank Holiday

Governor Ritchie Issues Proclamation Extending Over Three Day Period

(International News Service) BALTIMORE, Feb. 25.—All banks in Maryland were closed today and they will remain closed Monday and Tuesday. Gov. Albert C. Ritchie proclaimed the holiday for the protection of depositors.

His action followed that adopted by Governor Comstock in Michigan, who recently proclaimed a legal banking holiday in that state of several days.

Ritchie's order affects all banks and financial institutions. A meeting of the local bankers was called last night. Governor Ritchie attended as did Howard Bruce, chairman of the board of the Baltimore trust.

It was agreed that a legal banking holiday be proclaimed to permit the banks to take remedial steps against the unprecedented withdrawals, and to offer time for the legislature, now in session, to review proposed legislation for the protection of depositors and the security of the banks.

"I attended the meeting of bankers with the idea of doing whatever is best for the depositors," the governor said. "The interest of those who have placed their money in the banks must be preserved above everything else."

"I believe there is no justification for the withdrawals which have recently been taking place but to protect the property and savings of the people of the city and state, these large withdrawals should stop."

"It was the consensus of opinion

that a bank holiday should be declared Saturday, Monday and Tuesday which time certain legislation for the protection of the depositors and security of the banks could be presented to the legislature.

"The bank holiday will cease as soon as this legislation has been passed, and I am expecting that this will be done Tuesday, and that the banks will be able to reopen on Wednesday, with ample facilities available for the needs of the people."

The legislature is in recess Monday night.

## New Castle Looks For Tough Game At Hands Of Union Hi

New Castle High Quintet Expects Tough Battle From Union At New Wilmington

Coaches Bridenbaugh and Boyd Getting Teams Ready For Elimination Game

New Castle High School basketball team will not enter the elimination game next Wednesday night with Union High, carrying top heavy odds. The fans have not forgotten that New Castle only defeated Union by three points 25 to 22 in their meeting earlier in the season. The game next week at the Westminster College floor is expected to be a real battle. Union won the title in Section 18, and New Castle took the Section Three championship. The W. P. I. A. L. committee has selected the two Lawrence County schools to oppose each other in the second round of the tournament.

Coach Philip H. Bridenbaugh started Friday afternoon to condition the red and black passers for their journey engagement. It is likely that the same combination that won from Butler last Tuesday will be chosen to start the Union game. Teplica and Ridley will be the forwards, with Kelly at center and Reiber and Komic at the guards. Battley and Miles will be held in reserve.

**Must Start To Click**  
If New Castle is clicking they will have a good chance to defeat Union but on the other hand if New Castle is off and Union is on, then it's another story. The New Castle team is capable of good basketball. In only three games this year has the New Castle team played the kind of basketball it takes, a fighting game, an accurate game, a determined game. The three games in mention are Butler, a determined game at home and away, Coach Bridenbaugh will have the New Castle team clicking if it is possible to do so, the fans can rest assured of that. Bridenbaugh seems to have a way of getting the best out of his players, at the crucial moments.

Whether or not New Castle goes very far in the tournament this year depends a lot on Lester "Bus" Reiber, the blond leader. Right now Reiber looks like the class of the league, you can't deny that, but he can't fall now or it will be bad. Kelly is another chap Bridenbaugh is depending on to win a lot of games. This tall dark-haired boy looks good, but he still lacks the experience.

**Boyd Is Silent**  
Coach David M. Boyd out at Union High is saying nothing, he knows that Union will be facing the biggest test of the year. Boyd is proud of that showing against New Castle earlier in the season, but can Union do it again? seems to be the big question. Union is very much in this coming game.

The Scotland Laners have shown a marked improvement ever since the Bessemer game. Ralph Phillips has made the team look good at center. Wayne White the tall guard who is out of the game with an infected foot has been a spark plug for Union. There is not much chance of White getting in the game against New Castle. His place will likely be taken by Morimo, or Sniezek.

**Interesting game**  
The fans can rest assured that this will be a mighty interesting game. New Castle will beat Union in the lineup only beat the Union team by three points, and now they must face the Boyden again in a game that may mean the W. P. I. A. L. championship. New Castle is in a tough spot.

The tickets for the tourney game will sell for 40 cents if bought before the night of the game, and 50 cents if bought at the gate in New Wilmington. The Sporting Goods Store will handle the tickets for the fans. Tickets have also been sent to the Senior High School and to Union High. Indications point to a packed gym when the teams clash.

A 20 to 5 lead in the early part of the contest, was cut to 22 to 12 in favor of Grove City at the half.

## St. Marys Trims Swedes 40 To 31

St. Marys Upsets Olsons Terrible Swedes In Game At St. Marys Floor

**RESERVES WIN FROM WESLEY**  
St. Mary's varsity basketball team won from the Olson Terrible Swedes last night at the St. Mary's floor 40 to 31, in a fast and interesting battle. The defeat here was the first suffered by the Swedes in 25 straight games. Lackey and Andy Lackey led the Saints in scoring with 23 points between them. In the preliminary game the St. Mary's reserves handed the Wesley M. E. quintet a setback 38 to 25.

The Saints varsity team started out fast against their older and more experienced opponents and at the half mark held a lead of 22 to 17. The third period found the Frasersmen improving and the score was 28 to 20 with the Saints still leading. In the fourth and final period the Swedes threw a scare into the Saints by coming along at a rapid pace to almost tie the count at 33 to 31, but the Saints led by Lackey and Andy Lackey put on a strong finish and slowly crept away from the visitors. Pettigrew and Taite led the Olsons in scoring with nine points apiece.

The St. Mary's reserves kept their home slate clean last night by handing the West Wesley M. E. church team a 38 to 25 defeat in the preliminary. The playing of J. Uram, Kearns, and Hanlon featured for the reserves, with W. Rech, F. Rech and Hood the best for the Wesley team. This tall dark-haired boy looks good, but he still lacks the experience.

## Union Loses To Mt. Jackson By Score 29 To 19

Mt. Jackson Too Strong For Union's Championship W.P.I.A.L. Team

**KEANE IS STAR WITH 11 POINTS**

Union high school basketball team found out last night that being champions has its trials and tribulations, when they were upset very unexpectedly by a fighting Mt. Jackson high quintet at Union high floor 29 to 19. This was a Class A County League game, and gives Mt. Jackson a chance for the title. It was the second victory of the year for the Spearman over Union high.

The Union high team fresh from their upset of Karns City and elevation as Section 18 champions, played listless basketball for three periods last night and only in the second quarter did the Union team play up to standard. Mt. Jackson on the other hand was keen and alert and made the most of all of the Union miscues.

**Keane Is Star.**  
Keane was the outstanding scorer for the Mt. Jackson team with two field goals and seven fouls out of nine tries for 11 points. Griener and Thompson each had three field goals for the winners.

The score at the end of the first quarter was 7 to 4 with Mt. Jackson leading. The end of the first half found Mt. Jackson leading 10 to 8. After the intermission the Unionites came back to the floor but found a Mt. Jackson high team determined and were outscored 9 to 6, making the count 19 to 14 in favor of Mt. Jackson at the end of the third period. In the fourth and final quarter Mt. Jackson went to town with ten points against five for Union.

Union was off color at the foul line making but three out of seven. Coach Boyd will have a tough task getting his Union team ready for New Castle next Wednesday night. Union was crippled last night by the absence of Wayne White, star guard, who has an infected foot.

**SCORE 16-14 IN EXTRA TIME**  
George Washington Junior high basketball team for the second time this year defeated Ben Franklin Junior high quintet, but it required an extra period Friday afternoon to turn the trick at 16 to 14. The game was replete with thrills and fine playing on the part of both teams. It was an uphill fight for Washington high.

The end of the first period found the teams tied up at 4-4. The conclusion of the first half found the Franklin team ahead 6 to 4. The end of the third period Franklin led 12 to 6, with DeMartino, DeCaprio and Zingaro playing good basketball for the Wallacemen.

**Engs Wins Game**  
In the fourth period Washington high opened up with a barrage of field goals with Eng, Perrett and Julian each annexing baskets, and soon the Carrollmen had the lead, only to see the Franklin team tie the score at the end of the regulation game, 14 to 14.

During the extra-period Eng caged a long shot for the Washington team that brought victory. Donegan in the regulation game shot the foul that tied the count. Washington high can now claim the Junior high championship for this year.

## Jack Hulme Directing Intra-Mural Athletics For Westminster Men

(Special To The News)  
NEW WILMINGTON, Pa., Feb. 24.—For the eighth year in succession, intra-mural and inter-class athletic competition at Westminster College is attracting a large percentage of the men students. While intra-mural sports programs at Westminster were really inaugurated in 1920, it was not until Jack Hulme became director of the gymnasium and of aquatics in 1926 that such a program was organized on a large scale.

Eighty per cent of the men students at Westminster participated in organized games of one kind or another during last year, and the percentage participating this year is even higher.

In addition to regular physical education classes in gymnastics and swimming, 208 men students have already taken part in intra-mural games, and 39 students have acted as officials for these contests. In addition to this, 67 men students have taken part in varsity sports of cross country, football and basketball.

Intra-mural colleyball attracted 41 men students. The league championship was won by Delta Phi Sigma, with Phi Pi Phi and Theta Upsilon Omega fraternities second and third. Alan Van Harper acted as official for this sport.

Delta Phi Sigma fraternity also won the intra-mural horse-shoe tournament. This sport attracted 27 students. Kappa Phi Lambda fraternity was second, and Epsilon Theta Pi fraternity was third. Alan Van Harper was the official.

The freshman-sophomore football game was participated in by 58 members of the two lower classes, the freshmen winning by a 7-0 score. Officials were Glen Refus, John Brown, George Hollander, and Homer Dishong. Both teams were coached by students.

The intra-mural basketball league, divided by Hulme into "A," "B" and "C" teams, is now playing the last half contests. Each of the five fraternities has three teams: the first team, a "B" team composed of men who have not played much basketball, and a "C" team which is composed of novices. Teams from each of the three classes are matched together. This sport has more than 90 men competing. In other words, with 16 varsity basketball men and more than 90 intra-mural court performers, Westminster has almost 120 men competing in basketball this year.

Other intra-mural sports which will take place later this year include mushball, tennis, track, and archery golf.

Of the 319 men enrolled at Westminster out of the total enrollment of 650 for the year, 275 are therefore competing in one or more variety of intra-mural sports.

While many colleges, forced by finances, have played up intra-mural sports programs during the last two years as something unique and novel, the Westminster program in its eighth year continues to be one of the most enthusiastic of all student activities on the campus.

In addition to his duties as intra-mural sports director, Hulme is varsity team trainer, director of the gymnasium, and director of aquatics. A special group of physical education students under Hulme will present a water sports program on Mothers' day, Saturday, March 4.

## Will Scan Rural Areas For Dogs Not Licensed

With 1933 dog licenses distributed today to but 3,400 of the 6,000 Lawrence county dog owners who received tags in 1932, state dog law enforcement officers in this district prepared to begin their annual tour of rural districts to make certain violations do not exist.

For several days the prosecution of violations has been delayed, but today it was indicated the agents would make arrests for delay in purchasing tags after March 1.

Agents presumed that a flood of applications would reach the proper authorities here within the next few days following out the last-moment rush procedure traditional in the past.

"After March 1 the agents will be on the alert," J. Wylie Brewster, Lawrence-Beaver representative of the department of animal industry declared today. "Constables and other authorities in the districts are empowered to make arrests."

Authorities, recognizing the financial strain of the times, are hopeful that violations will be few. They desire that few arrests will be necessary, for the fine imposed is heavy. Possession of a tied dog, unlicensed, does not excuse an owner from securing a tag, it was explained. Arrests will be made in such cases.

Officials say fewer dogs may be seen about Lawrence county farms this year, chiefly because of economic reasons.

## BEAVER TOWNSHIPS

**GAVEL MEETING**  
The first meeting of a series of twelve Traveling Gavel meetings among the subordinate granges of Lawrence county was held Tuesday evening at Liberty Grange hall.

The visiting grange, Big Beaver and the host grange each presented half of the program. The presentation of the Traveling Gavel was made by the J. As there is some checking of books and other work that would have to be done even if the cards were not sent out the \$1924 would not represent the net saving. It is estimated however, that the saving would be from \$1500 to \$1700 if the cards are not sent out.

There is considerable difference of opinion as to whether or not the cards should be sent out this year.

## Digging Basement For Post Office

**Buildings Cleared, Work On Excavation Begins; Shovel Digs Deep**

A strong indication that New Castle's magnificent stone post office will begin to rise early, appeared late Friday when a steam shovel began to gulp away at the diamond lot earth as the basement excavation was started.

Wrecking of the aged brick and frame buildings that stood on the public square block for years, was completed when the last wall of the corner Cunningham building crashed yesterday. Workmen began the razing job January 19.

Scattered debris, the ruins of the fallen buildings, was today being trucked away along with the cellar dirt the steam shovel of the Frenger and Snyder concern was excavating. The local company has the excavating contract.

While the weather will play its part as usual, belief was held that within two weeks the basement will be cleared for the A. W. Kutsche company, Detroit, general contractors, to commence the foundation work.

"We speeded the wrecking along just as fast as we possibly could," said J. H. Eliscu and Victor Ristow, agents here for the Harris wrecking concern. The two men will remain here until every part of their salvaged property is sold.

Word will likely be sent here within several days as to the exact time the Kutsche company will begin its work.

The building as architects have planned it, will form one of the most imposing structures ever erected here. Tall stately pillars along the Washington and South Jefferson streets will add an impressive dignity. The stone building will be the home of every federal department, the war, navy, civil service and others when it is completed.

Congress at first appropriated \$25,000 for the local project, but later legislation reduced that appropriation by ten percent.

## ROAMING

**With Richards**  
Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle.

Usually athletic clubs hold banquets at the end of sport seasons to honor the players, or the coach, or the star of the team. The club of St. Andrews Church held a dinner last night in honor of the speakers who had appeared there from month to month in the past year and a half, a rather novel idea to say the least.

And had a bishop there for the chief address of the evening. Which in itself sets a record of some kind. An unusual affair in many ways. The soloists used no piano accompaniment, every guest at the speakers' table had to speak, and one of the entertainers was a lad who can increase his height or reach by stretching.

Believe it or not Mr. Ripley, this chap simply gives a few jerks, a stretch or two, and presto he is several inches taller than he was. Or he would wiggle one arm a bit and have it three or four inches out beyond the other one. Sort of a rubber muscled phenomenon.

Sat next to a corporal of the air service, George Loudon, who carries a medal for balling out of an airplane at 2500 feet. Just step overboard, drop the rip cord of a parachute and everything is okay. Like the coffee advertisement, the life of a parachute jumper is good to the last drop.

Nutter post card from Harold Baer, this time from Cadiz, Spain, where the old Spanish customs originated. This time it was the picture of a cathedral. Seems to be picking out the places where the sunshine is on the job.

Somebody's pet dog missed going to glory by the thickness of his hair the other night in Washington street. An automobile covered him and for a moment it was a good bet that he would be a cold pup. Somehow he wriggled out between the wheels unscathed but not unscared.

So far nobody has suggested that Senator Thomas J. Walsh of Montana who is going to marry a Cuban woman, is not following the slogan "Buy American."

If gals insist on wearing pants, and it would seem they have that thought, there's other things that they should do, to emulate the males they ought, to learn to shave and chew cut plug, and borrow matches from their pals, the bitters should go with the sweet, this information's gratis, gals.

If you really want to give some young man a good idea of no son of your own, wouldn't it be a fine idea to tell the committee that you'll take a boy to the Community Father and Sons banquet on March 2. Four bits will feed you both and it will be worth a lot more than that.

**GROW SEEDLING TREES AT CITY DISPOSAL SITE**  
In 1930, men working under the supervision of Frank Nugent, superintendent of the sewage disposal plant and grounds planted 2,400 seedling trees consisting of elm, white and green oak, walnut and butternut. During last year 1,700 of these trees were transplanted in various city plots. Nugent and his co-workers also prepared land for 64 garden plots at the disposal plant grounds and in West Clayton street. This year there will be at least 150 additional garden plots in Clayton street.

You can't tell. Maybe the Chinese at home would be stirred by the Jap invasion as Chinese in America are if they knew about it.

## Bishop Ward Makes Address

**Men's Athletic Club Of St. Andrew's Church Has Social Evening**

**NUMEROUS LOCAL SPEAKERS PRESENT**

It is the duty of the church to strengthen the morale of the people and to make people happy, said Bishop John C. Ward, Erie diocese of the Episcopal church when he addressed the Men's Athletic club of St. Andrew's Episcopal church, East Long avenue, last night.

The bishop was introduced by Rev. Samuel Black, pastor of St. Andrews, who also delivered the address of welcome to the honor guests at the monthly banquet of the club of which William Wignall is president.

Among the honor guests were Rev. P. C. Pearson, Mayor Charles Mayne, Councilman D. O. Davies, former Assemblyman Bart Richards, Attorney George Muse, Herman Hess, City Treasurer Louis McClung, Louis B. Bart, Foreman, Erie diocese of the Episcopal church when he addressed the Men's Athletic club of St. Andrew's Episcopal church, East Long avenue, last night.

The bishop said he was pleased to be present and said the work of President Wignall and the Men's A. C. "is one of the best bits of work being done in the diocese. The clergyman said it also was pleasing to see so many from other churches present."

He pointed to the meeting as an illustration of how people can gather to make each other happy and said that churches should be doing more of this kind of work. He said it increased the morale and it is the duty of the church to strengthen the morale and make people happy.

Rev. Pearson praised the leadership of President Wignall and expressed himself well pleased with the splendid fellowship which existed in the Men's A. C. When called upon Mr. Wignall said that with character there is no religion. He expressed himself pleased to be in charge of the club and said that it had met with success because of the co-operation of committees which have helped him.

Mayor Mayne spoke briefly. He said he would return to make an address in the future. Former Assemblyman Bart Richards made a splendid address as did Herman Hess. Louis Round said work like that carried on by the Men's Athletic club is having a good effect on the youth. Treasurer Louis McClung spoke briefly.

Attorney George Muse delivered a witty address which had his hearers rolling. Most of the basketball players, it was found, had gone to school in Lincoln-Garfield where Professor James Hughes is the principal. Corporal George Loudon told a few stories about the air service, and Dave Riley spoke about St. Andrews basketball team.

Kirkwood's Entertainers opened the program with music after which John Hetrick was toastmaster. The following was the program: Singing of America, Blessing by Bishop Ward; duet by W. H. and T. J. Evans; song by John Hitchen; song by Fred Cosel.

During the evening the assembly was entertained by the "Baker Boy" in a one man act. He could grow at leisure and at will it appeared. He could stretch his height and arms several inches, it appeared. He made quite a hit.

**FORMER LOCAL YOUNG MAN SERIOUSLY HURT**

Dale Heasley, age 21 years, is in a critical condition in the Greenville, Ohio, hospital, as a result of being hit by an automobile, local relatives learn.

Dale is the son of Mr. and Mrs. W. S. Heasley, who, until moving to Conneaut Lake, Pa., three years ago, resided in New Castle. Mr. and Mrs. Heasley were in New Castle visiting relatives several days ago and received word of their son's misfortune at that time. They hurried to his bedside immediately.
